BC 3.0

Customs Documents Module Guide

Module Location:

`CEISA` > `Customs Documents` > `BC 3.0`

The BC 3.0 menu is used to manage the Goods Export Notification (PEB). BC 3.0 is the goods export notification document.

Page Display

The BC 3.0 customs document page can display:

1. Application Number
2. Sender
3. Owner
4. Recipient
5. Registration Number
6. Registration Date
7. Route
8. Customs Office
9. Action

Status Description

Visible statuses include:

- Document Review
- The document is currently under review.
- Correction Approval
- Document corrections have entered the approval process.

PUSH

Data is undergoing synchronization/transmission.

Usage Steps

1. Open BC 3.0.
2. Specify the export period.
3. Search for the Application Number.
4. Check the status.
5. Retrieve the CEISA response.
6. Check the Registration Number.
7. Ensure the sender/recipient data is correct.
8. Perform an “Update to ERP” if necessary.
9. Run the process via “Action.”
