BC 3.3

Customs Documents Module Guide

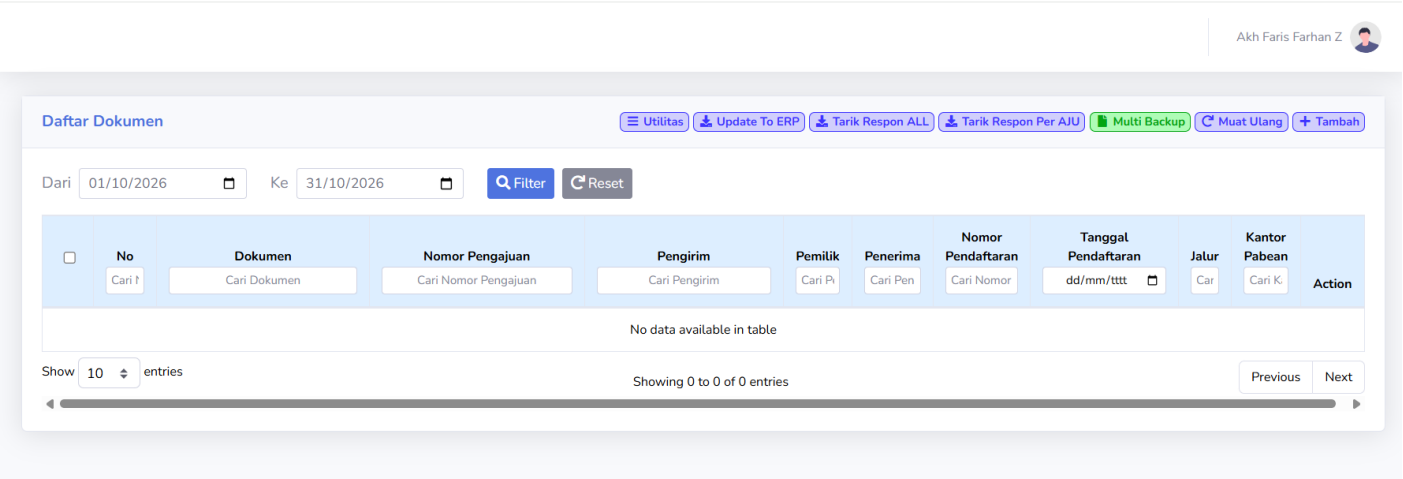

Module Location :

`CEISA` > `Dokumen Pabean` > `BC 3.3`

The BC 3.3 menu is used to manage notifications of goods exports through or from a Bonded Logistics Center.

Page Layout

The page uses a Document List view, similar to other BC menus. On the BC 3.3 customs document page, there is no data for the selected period.

Usage Steps

1. Open BC 3.3.
2. Select a period.
3. Click Filter.
4. Search for the Application Number, if available.
5. Retrieve the results.
6. Check the export status.
7. Ensure that the registration number is available.

No Data Condition

If the table displays:

No data available in table

change the search period or click Reset.
