Master SKEP

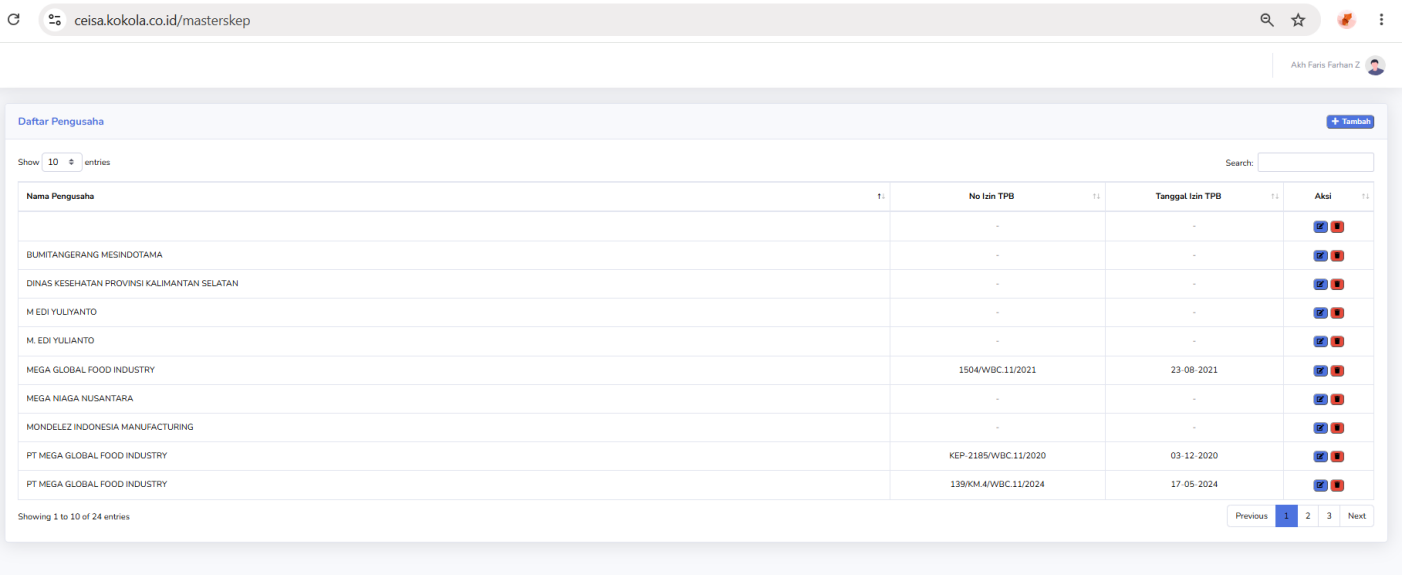

Customs Documents Module Guide

Module Location:

CEISA > Customs Documents > SKEP Master

The SKEP Master menu is used to manage SKEP reference data used in customs processes or for company facilities. Stored SKEPs can be used as references when document processing requires information on specific decisions or facilities.

Page Display

The display may include:

1. List of SKEPs.
2. SKEP Number.
3. SKEP Date.
4. Facility Type.
5. Validity Period.
6. Other related information.
7. Column details should be adjusted to match the actual SKEP Master page.

Usage Steps

1. Open the SKEP Master.
2. Search for the required SKEP.
3. Verify the SKEP number and information.
4. Add or modify data if the user has access rights.
5. Save changes.

Notes

Changes to the SKEP Master should be made by authorized users, as this data may serve as a reference for customs document processing.
