Personal Settings

Personal Settings Module Guide

Module Location

Settings > Personal Settings

The **Personal Settings** module allows each user to customize the appearance and elements displayed on their main dashboard. These settings are divided into three main categories: **Graph**, **KPI**, and **Misc**.

1. Graph Tab

This tab is used to manage all graphical elements that can be displayed on your main page.

a. Graph Setting

This section is used to show or hide summary information cards (custom items) on the dashboard.

Custom Item Name	View (Yes/No)
Pending Document	[Option]
Project Queue	[Option]
Project Running	[Option]
Reminder	[Option]
Request Alert	[Option]
Transporter SPMB Outstan	[Option]
Transporter SPP Outstandi	[Option]

- **Nama Custom** (Custom Name): Displays a list of available custom items.
- **Lihat** (View): An option to display (Yes) or hide (No) the item from the dashboard.

b. Graph Settings

This table allows you to customize each graph in detail, from its visibility to its appearance.

Column	Function
Nama Grafik (Graph Name)	The name of the graph to be displayed.
Lihat (View)	Option to display (Yes) or hide (No) the graph.
Tinggi (Height)	Sets the height of the graph in system-defined units.
Lebar (Width)	Sets the width of the graph in system-defined units.
Warna Bingkai (Frame Color)	Sets the frame color of the graph using a hexadecimal color code.
Warna Batang (Bar Color)	Sets the primary color (e.g., bars or pie slices) of the graph using a hexadecimal color code.

Column	Function
Bagian (Parts)	Defines the number of segments or sections in certain graph types (e.g., the number of slices in a Pie Chart).
Tipe Grafik (Graph Type)	Choose the type of graph visualization, such as `Bar 3D`, `Bar`, `Line`, `Pie`, `Pie 3D`, or `Pyramid`.

2. KPI (Key Performance Indicator) Tab

This tab (not shown in the image) most likely functions to select and configure the KPI metrics you want to monitor on your main page.

3. Misc (Miscellaneous) Tab

This tab (not shown in the image) likely contains various other personal settings that do not fall under the Graph or KPI categories.

Action Buttons

- **Ubah** (Change): Click this button to save all the changes you have made in any tab within the Personal Settings module. Changes will not be applied if this button is not clicked.
